

TRUCK & BUS TYRE INFLATION CAGE (MIC-4)

MARTINS

Professional-Grade Safety for Commercial Fleet & Workshop Maintenance

The industry's bestseller. Robotically welded and engineered using high-toughness structural steel to exceed global safety standards.

TWO-YEAR WARRANTY

✓ **Maximum Safety:**

Provides uncompromising protection for technicians against blown lock rings, catastrophic tire explosions, and heavy rim failures

✓ **Heavy-Duty Build:**

Manufactured with high-strength structural steel tubing—robotically welded for perfect precision and unyielding structural integrity under explosive stress.

✓ **Extreme Durability:**

Coated with a premium UV-resistant, heat-baked powder finish (Safety Orange) that retains its deep luster, anti-corrosive properties, and high visibility in harsh shop environments.

✓ **Certified Protection:**

Fully compliant with CE and DGUV – BGR 157 requirements; exceeds OSHA Standard 29 CFR 1910.177.

* This product include safety information & procedures sticker
