

STAND FOR AUTOMATIC TYRE INFLATOR

MARTINS

Professional-Grade Mounting Solution for Efficient Workshop Inflation

Heavy-duty steel stand that mounts an automatic tyre inflator directly to your safety inflation cage, keeping essential tools organized and within reach.

TWO-YEAR WARRANTY

✓ Increased Efficiency:

Installing your tyre inflator directly on your inflation cage eliminates unnecessary trips across the shop, streamlining your workflow and boosting overall productivity.

✓ Universal Compatibility:

Designed to fit perfectly on all MARTINS safety inflation cages (MIC-3, MIC-4, MIC-5, and MIC-OTR) as well as many smaller competitive cage bars

✓ Rugged Industrial Build:

Manufactured from high-quality, durable steel with a heat-baked orange powder coat finish, built to withstand daily use in professional fleet and tyre service environments.

✓ Space-Saving Design:

Clears up valuable wall space and keeps your service area organized by consolidating your inflation system into a single, compact workstation.

MW-STAND
